

New Trier Health Services Welcomes the Class of 2016

Important Dates

May 15 th	Physical exam and immunization record due for students attending summer school.
June 11 th	Summer School begins. Students must have health records on file to start classes.
July 15 th	Physical exam and immunization record due for school entry.
August 22 th	1 st day of student attendance. Health records must be on file to start classes.

Illinois state law requires that all students provide documentation of a physical exam before the first day of school, including summer school. The exam must be done within one year of school entry. Students who do not provide this documentation will not be allowed to start classes. An additional form is required for students who want to try out for sports.

This packet includes all the forms you need to submit for school entry and athletics. Forms are also available on New Trier's website, www.newtrier.k12.il.us. Go to Student Services/Health Services/Forms.

- The white physical form (Certificate of Child Health Exam) is two-sided and requires information from you and your physician. Please note any health conditions, disabilities, and medications taken on a regular basis.
- **New requirement: All students must have a Tdap vaccine regardless of the interval since the last DTap, DT or Td dose.**
- The blue emergency form is used to contact parents or their delegates in case of illness or injury.
- The pink medication form is available for administration of prescription and over-the-counter medications. All medications (except for asthma inhalers which require a parent signature and a pharmacy label) require physician and parent signatures. Generic Tylenol, Advil and Benadryl are available in Health Services. Students may carry labeled inhalers, EpiPens/Benadryl and Insulin with medication authorization on file.
- The Athletic Physical and Consent form is required for students who plan on trying out for sports.
- Make your doctor's appointment early as summer is a very busy time for many pediatric practices.
- Contact the school nurse to address a student health need or concern and to answer any questions.
- **Keep a copy of all records sent.**
