

2024-25 New Trier High School Math Tutor List

The Mathematics Department feels that hiring a private tutor - although beneficial - should be a last resort. Before hiring an expensive private tutor, you should make sure that you and your child have taken advantage of the following resources.

The Teacher: Often student difficulties can be overcome if the student meets the teacher for extra help. This should be the first option you seek when your child needs assistance.

Math Resource Room (Winnetka): There is a mathematics teacher and tutors in the Math Resource Room (room 325) The department encourages students to stop in for help during their free periods.

Academic Assistance Center (AAC - Northfield): There are mathematics tutors in the Math in the Academic Assistance Center (room A405.) The department encourages students to stop in for help during their free periods.

Student Tutoring (Winnetka): Students can sign up for a student tutor at the NTHS web site. Often, students benefit from working with a student who has been successful in the same course.
