

## 2022-23 New Trier High School Math Tutor List

The Mathematics Department feels that hiring a private tutor - although beneficial - should be a last resort. Before hiring an expensive private tutor, you should make sure that you and your child have taken advantage of the following resources.

**The Teacher:** Often student difficulties can be overcome if the student meets the teacher for extra help. This should be the first option you seek when your child needs assistance.

**Math Resource Room (Winnetka):** There is a mathematics teacher in the Math Resource Room (room 325) The department encourages students to stop in for help during their free periods.

**Academic Assistance Center (AAC - Northfield):** There are mathematics tutors in the Math in the Academic Assistance Center (room A405.) The department encourages students to stop in for help during their free periods.

**Student Tutoring (Winnetka):** Students can sign up for a student tutor at the NTHS web site. Often, students benefit from working with a student who has been successful in the same course.
