

Dear Parents/Guardians,

NTPA Parent University presents ***Straight Talk: The Truth and Consequences of Teen Risk Behaviors*** on **April 25, at 6:30 P.M. in room C234, Northfield**. Parents are invited to learn the facts about teen use of marijuana, drinking, and other risky behaviors. Drawing on data from the most recent Youth Risk Behavior Survey (YRBS), our panel of experts will examine the following:

- How prevalent is alcohol and drug use among our students?
- What reasons do students give for using or not?
- What is the latest information about marijuana, edibles, and vaping among teens?
- What do we want our kids to know about healthy relationships, consent and sexual assault?
- How does New Trier support students in making good choices and what can we as parents do?
- What are the legal, academic, and extracurricular consequences that occur when teens make poor choices?

**Registration is required for in-person attendance; [register here](#).**

**To watch via livestream, [click here](#).**

**Recording will be available on the Principal's Page within a few days after the event.**

Panelists include Assistant Principal of Student Services Scott Williams, Student Assistance Program Coordinator Kris Hummel, Social Work Chair Tiffany Myers, School Resource Officer Josue Perez, and pediatrician Dr. Susan Sirota. Moderated by Principal Denise Dubravec.

Thank you,

Denise Dubravec

Principal, Winnetka Campus
