

The Adviser System

Adviser rooms meet daily and are made up of approximately 25 students. The adviser room stays together for four years. Adviser rooms are designed for students of all ability levels, with varied interests and from different communities. There will be 3 options in PowerSchool regarding the gender structure of your student's room.

The 3 options are:

1. No Preference: Student will be placed in either a mixed gender or single gender group.
2. Mixed Gender: Student will be placed in a mixed gender group.
3. Single Gender: Student will be placed in a single gender group with an adviser of the same gender.

The compilation of adviser rooms is a complex process. Great time and care is spent to create a diverse profile within each group. We *do not* honor requests for a specific adviser or to have your child placed with a specific student. However, if you have a concern about your child being placed with another student of either gender and would like to request for your child to be separated from that student, please log into your parent PowerSchool account. There will be a request form under *Forms*.

- When completing the form, be sure to include your child's name, the sender school that they attend, the name of the other student and their sender school, and a concise reason for the separation request. Please limit this request to up to three students.
- These requests must be received by May 1, 2023.
