## General Information

### Location

Summer School 2022 classes will take place at the Northfield Campus. Students will be provided their class location prior to the first day of class.

### Dates

- February 2 – Registration opens
- March 15 – Registration deadline for academic courses
- June 13 – Summer School begins
- July 29 – Last day of Summer School
- Classes will not meet on Monday, July 4
- Semester 1: June 13 – July 6
- Semester 2: July 7 – July 29

### Summer School Registrar

Room 215, Winnetka Campus  
NTSummerschool@nthns.net

### Summer School Athletics

Room 214, Winnetka Campus  
athletics@nthns.net, 847-784-2225

### Summer School Website

<http://www.newtrier.k12.il.us/SummerSchool/>

### Registration For Academic Courses

- Registration begins on February 2 and ends on March 15. Courses with insufficient enrollment will be canceled after the March 15 deadline. We will continue to accept registrations for open courses after March 15 until the enrollment reaches capacity.
- Summer school courses fill up quickly and are on a first-come, first-serve basis.
- Tuition for credit recovery courses will be waived.
- Registration for Summer School courses is done through PowerSchool Summer Registration form.

### Health Records

Incoming freshmen attending summer school must submit documentation of a current physical and immunizations. Please provide documentation prior to the start of summer school. Current New Trier sophomores, juniors, and seniors have already met this requirement.

Phone: 847-784-2110 Fax: 847-835-9852 or scan to [healthservices@nthns.net](mailto:healthservices@nthns.net).

### Registration for Enrichment and Sports Courses

- Registration begins on February 2 and continues until the opening of Summer School. Courses with insufficient enrollment will be canceled after the March 15 deadline. We will continue to accept registrations for open courses until the enrollment reaches capacity.

- Summer school courses fill up quickly and are on a first-come, first-serve basis.
- These courses are open only to students born on or before September 1, 2008.

### Bookstore

The New Trier Bookstore, Northfield Campus (room C101L), will be open 8:00 a.m. – 4:00 p.m. from June 13 – June 17 and 8:00 a.m. – 2:00 p.m. from June 20 – July 29. The phone number is 847-441-5674.

### Transportation

Summer school shuttles will run between both campuses, with stops at Duke Childs Field. The shuttles will begin service at 7:35 a.m. at Winnetka and 7:50 a.m. from Northfield. The last shuttle will depart Winnetka at 1:05 p.m. and Northfield at 1:20 p.m. Shuttles will pick-up on Trevian Way even with the North Entrance at the Winnetka Campus and at the flagpole on Happ Road at the Northfield Campus. More detailed information will be shared in spring on the district website.

### Schedules

The Summer School schedule will be available in PowerSchool approximately two weeks before the start of Summer School. Students should report to their classes on the first day of Summer School. This will be a full day of classes.

### Canceled Courses

The Summer School registrar will email those who requested a course that is being canceled. The target time for this notification is mid-April. If a class is canceled, New Trier will refund the tuition.

### Non-District Students

Students who are not enrolled in District 203 may not enroll in Summer School 2022.

### Late Registration

Students who need to repeat a course due to failure in English, Math, Social Studies, or Science may register through the first two days of Summer School. Classes missed due to late registrations are counted as absences. Students may register on June 13 for academic classes that have space.

### Refunds

Students may receive a full tuition refund for a dropped course through the first three days of the class. Request for refunds for a dropped course after this time will receive a refund of 50% of the course fee. **Requests for refunds must be emailed to [summerschoolbilling@nthns.net](mailto:summerschoolbilling@nthns.net).**

Semester 1 full refund deadline: 3:00 p.m., June 15  
Semester 2 full refund deadline: 3:00 p.m., July 11

Refund requests received after the deadline will be refunded by June 30 (1st semester) or July 29 (2nd semester). Requests to prorate course fees due to non-attendance in the course will be considered if more than 50% of the days will be missed. The three-day deadline also applies to classes that do not fall within the semester framework.

# Grades and Attendance

## Incoming Freshmen

Credit is not earned for summer school courses and they will not appear on the student's transcript.

### Attendance

An incoming freshman who exceeds the absence limit for a class will not receive credit and may be dropped from that class. Three tardies to a class will be counted as an absence. Any single tardy beyond 30 minutes will be counted as an absence.

## Enrichment Courses For Entering Freshmen

Algebra 1 (Review)  
 Cooking for Teenagers  
 Dance Workshop (Co-ed)  
 EL Reading & Writing Enrichment (see course description)  
 Guitar Making  
 Introduction to Freshman English  
 Introduction to High School Mathematics  
 Mathematical Mindsets  
 Reading Enrichment  
 Rube Goldberg Extreme Engineering  
 Studio Art

## Rising Sophomores, Juniors, and Seniors

### Grades

- **Enrichment Courses:** Credit is not earned for these courses and they will not appear on the student's transcript.
- **Graded Courses:** Students earn letter grades, as they do in the regular school year. Students may not take these courses for audit credit. Students must register for Summer School in levels consistent with their 2021-2022 school year placements. Any change in level requires a "Schedule Change" form obtained through the adviser and submitted prior to the first day of Summer School. Level changes will not be permitted after the second day of each semester.
- **Sports Courses:** Credit is not earned for these courses and they will not appear on the student's transcript.

### Attendance

For attendance purposes, a 1-credit course consists of two semesters, and the attendance rules apply accordingly; i.e., a student may miss no more than 2 days per semester. Three tardies to a class will be counted as an absence. Any single tardy beyond 30 minutes will be counted as an absence.

## Absence Limits

- A course that meets 2 hours/day for 3 1/2 weeks has an absence limit of 2 days.
- A course that meets 2 hours/day for 7 weeks has an absence limit of 4 days (2/semester).
- A course that meets 4 or 5 hours/day for 7 weeks has an absence limit of 4 days (2/semester).
- Please note exceptions for Consumer Seminar (Web-based) and Driver Education.

- Absence limits are prorated for classes that meet outside the traditional semester schedule (see course descriptions).
- **All students in Academic courses must be present on the day of the final exam.**

### NOTE:

A student who exceeds the absence limit in an enrichment course may be dropped from the class.

A student who exceeds the absence limit before the drop date for a graded course will be dropped from the class, will receive no credit, and will not be allowed to return to class.

A student who exceeds the absence limit after the drop date in a graded course will receive an F grade and will be removed from the class.

## Drop Dates

A student who chooses to drop a graded course must do so before the deadline, or the course will appear on the transcript with a grade of WP (Withdraw/Pass) or WF (Withdraw/Fail).

Semester 1 deadline: June 24; 3:00 pm

Semester 2 deadline: July 20; 3:00 pm

## Symbols (All Classes)

- Courses marked \* do not meet department requirements for graduation.
- Courses marked \*\* require the student to accomplish daily what is expected in a week during the regular school year.
- Fr., So., Jr., Sr. – these designations refer to the student's status in the fall of 2022.

# Academic Course Descriptions

*Courses in this section of the brochure are offered during the regular school year, are considered introduction courses for specific department curricula, and/or earn academic credit. Please review the course description for course specifics.*

## Business Education

### Consumer Seminar\*\*

JUNE 13-JULY 6 OR JULY 7-JULY 29 / 8:15-NOON / NORTHFIELD CAMPUS  
.5 CREDIT / \$310 / ABSENCE LIMIT: 2 DAYS  
OPEN TO JUNIORS AND SENIORS ONLY

In this course, students acquire an array of skills that promote good personal finance habits and create an awareness of how to secure their financial futures. Careers, budgeting, money management, taxes, credit, investments, housing, transportation, and insurance are just a few topics students will study in this course. This course is faster-paced than the traditional semester course offered during the regular school year. **This course fulfills the state Consumer Education requirement.**

### Consumer Seminar: Web-based\*\*

JUNE 13-JULY 29 / 8:15-10:00 / NORTHFIELD CAMPUS  
THIS SECTION WILL MEET MONDAY, JUNE 13, JULY 11, AND JULY 25  
.5 CREDIT / \$310 / ABSENCE LIMIT: 0 DAYS  
OPEN TO JUNIORS AND SENIORS ONLY

**THIS COURSE WILL BE FULLY-REMOTE AND STUDENTS WILL BE WORKING INDEPENDENTLY OUTSIDE OF THE THREE REQUIRED CHECK-IN DAYS.**

This web-based course offers students an alternative method of instruction to that of a traditional classroom. All assignments, readings, research, and exams will be delivered via the internet. There are significant homework assignments, major projects, and quizzes due each week.

The focus of the course is managing personal finances, with an emphasis on protection from fraudulent behavior, preparation of budgets, understanding credit and financial institutions, and learning purchasing strategies for transportation and adequate insurance.

Students in this course must be organized and work independently. Students will need to navigate the internet using a variety of search engines. Students should be proficient in file management and software applications, including the Microsoft Office suite, PDF Annotation, and Canvas. Access to the internet from home is extremely important, and students should expect to be online for a minimum of 1-2 hours a day.

Students are required to attend three mandatory synchronous class sessions June 13, July 11, and July 25. These synchronous class meetings are critical for students to be successful in the course. Class attendance is mandatory. **Missing any of the three required synchronous check-in sessions will result in no credit. This class may not be taken concurrently with any other class. This course fulfills the state Consumer Education requirement.**

## Driver Education

### Driver Education\*\*

JUNE 13-JULY 29 / 7:00-7:50 (LAB) & 1:00-1:50 (THEORY) / NORTHFIELD CAMPUS  
ALLOWS STUDENTS TO TAKE ADDITIONAL COURSE(S) BETWEEN 8:15 AND 1:00.  
8:15-10:00 (LAB & THEORY) OR 10:15-NOON (LAB & THEORY)  
.5 CREDIT / \$500 FEE  
NO NON-EMERGENCY ABSENCES ARE ALLOWED BECAUSE THE COURSE MEETS THE MINIMUM CONTACT TIME REQUIREMENTS ISSUED BY THE STATE OF ILLINOIS.

Driver Education is a two-phase program. Students will complete at least 30 hours of classroom instruction and 11+ hours of behind-the-wheel instruction. The curriculum covers traffic laws and enforcement, driving skills, and responsibility of vehicle ownership. The behind-the-wheel portion develops a student's basic driving skills, techniques, and decision-making abilities while driving.

This course is open only to New Trier District 203 resident students born on or before June 15, 2007. Students will **not** have to go to the Secretary of State's Office to obtain their Driving Permit. The permit application, eye exam, and the *State of Illinois Rules of the Road* written test will be completed in class during the first week of summer school. It is recommended that students review the Illinois Rules of the Road that are available on the Illinois Secretary of State's website [cyberdriveillinois.com](http://cyberdriveillinois.com) prior to the first day of class.

# English

---

## THE FOLLOWING COURSES REQUIRE ENGLISH DEPARTMENT APPROVAL.

The prior year's English teacher in consultation with the Department Chair will determine whether a student may complete a course for credit recovery or must take the course for make-up credit. Make-up credit is only available at level 2. Credit recovery must be completed in the summer directly following issuance of a grade of I and will result in either a letter grade or a grade of "P" for passing credit. Students taking a course for credit recovery will not necessarily be present for all of the summer school course but may be present for only the time needed to complete work for credit recovery. Length of attendance and days of attendance will be determined by the summer school teacher.

### English 1- Credit Recovery\*\* level 2

---

JUNE 13-JULY 29 / 10:15-NOON / NORTHFIELD CAMPUS  
.5 CREDIT / ABSENCE LIMIT: 4 DAYS OR 1 DAY PER 2 WEEKS

**Open to So. ONLY.** English 1 may be taken as either a make-up course for one full semester of freshman English or as a credit recovery course. The course is designed to develop and strengthen grade 9 writing, reading, listening, and speaking skills. The course focuses on developing effective arguments, descriptive narratives, research skills, close reading of fiction, and effective discussion skills. Students will engage in process writing steps to develop their ability to brainstorm and draft written pieces.

### English 2- Credit Recovery\*\* level 2

---

JUNE 13-JULY 29 / 10:15-NOON / NORTHFIELD CAMPUS  
.5 CREDIT / ABSENCE LIMIT: 4 DAYS OR 1 DAY PER 2 WEEKS

**Open to Jr. ONLY.** English 2 may be taken as either a make-up course for one full semester of sophomore English or as a credit recovery course. This course is designed to strengthen skills in critical reading and to develop further sophistication in argument, narrative, research, and informational writing. Students will respond to appropriately challenging literature to extend their understanding of an author's purpose and learn how to effectively reason from evidence for in written and oral form. Students will write clearly and logically by completing assignments demanding more complex argument, with an emphasis on organization and relevant detail. Students will engage in process writing steps to refine their ability to brainstorm and draft written pieces.

### English 3- Credit Recovery\*\* level 2

---

JUNE 13-JULY 29 / 8:15-10:00 / NORTHFIELD CAMPUS  
.5 CREDIT / ABSENCE LIMIT: 4 DAYS OR 1 DAY PER 2 WEEKS

**Open to Sr.** English 3 may be taken as either a make-up course for one full semester of junior English or as a credit recovery course. This course is designed to strengthen skills in critical reading and to develop further sophistication in argument, narrative, research, and informational writing with a strong emphasis placed on the development of more sophisticated research skills. Students will respond to various works of American literature from the 18th-21st centuries to extend their understanding of an author's purpose and learn how to effectively reason from evidence in written and oral form. Students will write clearly and logically by completing assignments demanding more complex argument from multiple, diverse sources, with an emphasis on clear organization, relevant detail, careful integration, and rhetorical sophistication. Students will engage in all process writing steps to refine their ability to carry an assignment from conception to polished completion.

### English 4- Credit Recovery\*\* level 2

---

JUNE 13-JULY 29 / 8:15-10:00 / NORTHFIELD CAMPUS  
.5 CREDIT / ABSENCE LIMIT: 4 DAYS OR 1 DAY PER 2 WEEKS

**Open to Class of 2022 Students.** English 4 may be taken as either a make-up course for one full semester of senior English or as a credit recovery course. This course is designed to prepare students for the demands of critical reading at the college level and to develop further sophistication in argument, narrative, research, and informational writing with a continued emphasis placed on the development of more sophisticated research skills for college level writing. Students will respond to various works of world literature to extend their understanding of an author's purpose and learn how to effectively reason from evidence for in written and oral form. Students will write clearly and logically by completing assignments demanding more complex arguments from multiple, diverse sources, with an emphasis on clear organization, relevant detail, careful integration, and rhetorical sophistication. Students will engage in all process writing steps to refine their ability to carry an assignment from conception to polished completion.

# Kinetic Wellness

## Health level 8

JUNE 13-JULY 6 / 8:15-NOON / NORTHFIELD CAMPUS  
.5 CREDIT / \$310 / ABSENCE LIMIT: 2 DAYS

**This course is designed for rising sophomore students who are registered for a full year of dance curriculum during the 2022-23 school year.** The Personal Fitness portion of the course addresses health-related fitness, body images, nutrition, sleep, and stress management. The Sexuality Education portion of the course addresses reproductive health and healthy relationships with an emphasis on healthy decision-making. Students who were unsuccessful in completing the course during the school year may also sign up for this course. Missing more than two classes will result in no credit for the course. This course fulfills the state Health Education requirement for graduation.

# Mathematics

## Algebra 1\*\*- Credit Recovery level 2

JUNE 13-JULY 29 / 8:15-NOON / NORTHFIELD CAMPUS  
1.0 CREDIT / ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

**Open to So., Jr., Sr.** This course is a full year of first-year algebra. It is designed for students who have previously taken all or part of first-year algebra at the high school level. It is not open to incoming freshmen.

## Algebra 2\*\*- Credit Recovery level 2

JUNE 13-JULY 29 / 8:15-NOON / NORTHFIELD CAMPUS  
1.0 CREDIT / PREREQUISITE: PLANE GEOMETRY, LEVEL 2  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

**Open to So., Jr., Sr.** This intermediate algebra course is a continuation of Algebra 1, including the solutions of equations, inequalities, and systems. It is designed for students who have previously taken all or part of second-year algebra at the high school level. An emphasis is placed upon understanding relations and functions, including quadratic functions, exponential functions, logarithmic functions, rational functions, and polynomial functions. The unit circle, probability and statistics, series and sequences, and the complex number system are introduced. Students taking this course must have a TI-Nspire CAS calculator.

## Plane Geometry\*\* level 3

JUNE 13-JULY 29 / 8:15-NOON / NORTHFIELD CAMPUS  
1.0 CREDIT / \$620 / PREREQUISITE: ALGEBRA 1, LEVEL 3  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

**Open to So., Jr., Sr.** This course is the full year of Plane Geometry. First semester emphasizes the development of geometric concepts using formal proofs. Second semester focuses on the application of algebraic techniques in the study of geometry. The rapid pace of summer work requires students to be highly motivated. Students must have successfully completed Algebra 1, level 3, with a grade of at least "B", or prior approval of the New Trier Mathematics Department Coordinator.

## Science

All science courses taught during the summer are full-year courses taught during 7 weeks. Students will do the equivalent of a week's worth of class and lab work in school every day and a week's worth of homework every night. Successfully completed seven-week courses earn one year's credit (2 x 0.5 credit per semester). All prerequisites apply. Depending on registration requests, some courses may be combined.

### Biology\*\* level 2, level 3, level 4

JUNE 13-JULY 29 / 8:15-1:00 P.M. / NORTHFIELD CAMPUS  
1.0 CREDIT / \$860  
OPEN TO SO., JR., SR. / PREREQUISITE: NONE  
PLACEMENT: BASED ON ENGLISH LEVEL  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

This laboratory course in life science explains life from the microscopic levels of cells to the interactions of populations and their environment. Biology challenges students to explore a broad range of topics and major themes, including Cell Structure, Function and Processes, Macromolecules, Genetics, Evolution, Taxonomy, Ecology, and Human Anatomy and Physiology (including the dissection of the fetal pig). Discussion on health and disease will also be explored. Lab experiences are designed to develop skills in making observations, gathering data, and being able to critically assess the results. An emphasis will be placed on building conceptual understandings while applying scientific knowledge to real world problems. This course fulfills the graduation requirement for Biology. Tuition includes lab fees.

### Biology PCB\*\* level 3, level 4

JUNE 13-JULY 29 / 8:15-1:00 P.M. / NORTHFIELD CAMPUS  
1.0 CREDIT / \$860  
OPEN TO JR., SR.  
PREREQUISITE: PHYSICS PCB AND CHEMISTRY PCB  
PLACEMENT: BASED ON CHEMISTRY PCB LEVEL  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

This laboratory course is designed to be taken after having completed one year of Physics PCB and one year of Chemistry PCB. The course introduces students to all of the basic concepts found in the regular biology survey course with the enhancement of a better scientific background, allowing for more depth of some topics. Cellular and molecular components of life will be emphasized, along with genetics and evolution. Physiology and anatomy (including the dissection of the fetal pig) will be covered, incorporating a deeper understanding of the chemical and physical aspects of these topics. Ecology, evolution, and genetics also are covered. Discussions on health and disease will also be explored. Laboratory investigations follow the sequence of text material in concept, and several involve a quantitative analysis and interpretation of data. This course fulfills the graduation requirement for biology. Tuition includes lab fees.

### Chemistry\*\* level 2, level 3, level 4

JUNE 13-JULY 29 / 8:15-1:00 P.M. / NORTHFIELD CAMPUS  
1.0 CREDIT / \$860  
OPEN TO SO., JR., SR.  
PREREQUISITE: REQUIRES AVERAGE OR BETTER PERFORMANCE  
IN ONE YEAR OF ALGEBRA  
PLACEMENT: BASED ON MATHEMATICS LEVEL  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

In this laboratory course, studies are made of energy and its changes, chemical formulas and equations, stoichiometry, chemical equilibrium, oxidation-reduction, acid-base reactions, atomic theory, concepts of chemical bonding, introductory organic chemistry, the mole concept, properties of all states of matter, nuclear chemistry, periodic laws, and descriptive chemistry. Experimental work is designed to explore these topics, qualitatively and quantitatively. Students will study concepts in depth at an accelerated pace and will be expected to work independently. This course fulfills the graduation requirement for physical science. Tuition includes lab fees.

### Chemistry PCB\*\* level 3, level 4

JUNE 13-JULY 29 / 8:15-1:00 P.M. / NORTHFIELD CAMPUS  
1.0 CREDIT / \$860  
OPEN TO SO., JR., SR.  
PREREQUISITE: COMPLETED PHYSICS PCB  
PLACEMENT: BASED ON PHYSICS PCB LEVEL  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

This laboratory course in chemistry is the second course in the sequence of Physics - Chemistry - Biology. This course will make connections to the previous physics course and will build concepts to be used in biology. Topics include energy and its changes, chemical formulas and equations, stoichiometry, chemical equilibrium, oxidation-reduction, acid-base reactions, atomic theory, concepts of chemical bonding, introductory organic chemistry, the mole concept, properties of all states of matter, nuclear chemistry, periodic laws, and descriptive chemistry. Experimental work is designed to explore these topics, qualitatively and quantitatively. Students will study concepts in depth at an accelerated pace. This course fulfills the graduation requirement for physical science. Tuition includes lab fees.

## Environmental Geoscience\*\* level 9, level 4

JUNE 13-JULY 29 / 8:15-1:00 P.M. / NORTHFIELD CAMPUS  
1.0 CREDIT / \$860 / OPEN TO SO., JR., SR.  
PREREQUISITE: NONE / PLACEMENT: BASED ON ENGLISH LEVEL  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

This laboratory course is the study of the interrelationships among humans and the lithosphere, hydrosphere, atmosphere, cryosphere, and outer space. Environmental Geoscience addresses several of the most important questions in science: Are we alone in the universe? How did the universe begin? How did life begin (as revealed by the fossil record) and What is the future fate of Planet Earth? The course also explores the processes of nature that shape our environment, creating both valuable natural resources and natural hazards that affect the quality of human life. Furthermore, the course explores how man-made pollution and resources depletion impact our society. Course work includes library research, writing, and classroom presentations. Lab activities may include deep space imaging, stellar spectroscopy, the feasibility of living on Mars, water testing, atmospheric measurements and modeling, plate tectonic and earth structure models, and fossil recovery. This course fulfills the graduation requirement for physical science. Tuition includes lab fees.

## Physics\*\* level 2, level 3, level 4

JUNE 13-JULY 29 / 8:15-1:00 P.M. / NORTHFIELD CAMPUS  
1.0 CREDIT / \$860  
OPEN TO JR., SR.  
PREREQUISITE: ALGEBRA 1 AND GEOMETRY; ALGEBRA 2 IS ALSO STRONGLY ENCOURAGED FOR 3-LEVEL; ALGEBRA 2/COLLEGE ALGEBRA/TRIG IS STRONGLY ENCOURAGED FOR 4-LEVEL / PLACEMENT: BASED ON MATHEMATICS LEVEL  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

Physics courses have similar content, differing only in the depth of treatment and mathematics used for each topic. This laboratory course includes the study of motion (kinematics and dynamics), energy, waves, electricity and magnetism, light, and additional topics. The ability to apply math models will be developed in this course, with more independent expectations at the 4-level. This course fulfills the graduation requirement for physical science. Tuition includes lab fees.

## Social Studies

### United States History\*\* level 3, level 4

JUNE 13-JULY 29 / 8:15-NOON / NORTHFIELD CAMPUS  
1.0 CREDIT / \$620  
ABSENCE LIMIT: 4 DAYS (2/SEMESTER)

**Prerequisite: World History. Open to Jr. and Sr.** This full-year course traces the key historical and cultural development of the American experience from its pre-colonial origins to the present. Students acquire an understanding of American culture by studying the social, economic, and political origins of value systems, the role of geography, and the interaction among the many groups that live in the United States. The course emphasizes such skill areas as evaluation of primary sources, library research techniques, writing, and class discussion. Please note: The 4-level section is not entitled "Advanced Placement" because it does not prepare students for the AP exam. This class fulfills the graduation requirement for United States History.

### Chicago Summer Seminar\* level 9, level 4

JUNE 13-JULY 6 / 8:15-NOON / NORTHFIELD CAMPUS  
.5 CREDIT / \$310 / ABSENCE LIMIT: 2 DAYS

**Prerequisite: World History.** This course will engage students in a study of the Chicago metropolitan area. Students will gain an understanding of Chicago's history and geography through the use of a variety of resources: readings, examination of primary source materials, field trips, and sessions with guest speakers. After developing a solid background in Chicago history, geography, economics, and politics, students will explore the city's contemporary issues. This course will utilize the city and suburbs as an extended classroom. This is a 3.5 week course. Students will receive one semester of major credit.

## Civics\*\*

### Level 9, level 4

---

JUNE 13-JULY 6 OR JULY 7-JULY 29 / 8:15-NOON / NORTHFIELD CAMPUS  
.5 CREDIT / \$310  
ABSENCE LIMIT: 2 DAYS

---

**Prerequisite: World History. Open to So., Jr., and Sr.** What are the obligations of a citizen? How can regular people effect change? This one semester civics course will investigate the structures of American government, the democratic process, and the role of the citizen in that process. Students will explore current and controversial issues, engage in simulations, and participate in service learning. Through their studies and activities in this course, students will come to appreciate participation in an active democracy. Content areas include: the Constitution, voting and elections, media, and law-making. This course fulfills the civics graduation requirement and includes the study of the state and federal constitutions. **Please be certain to register for the appropriate level.**

# Enrichment Course Descriptions

*Courses in this section of the brochure are only offered during Summer School and will not appear on the student's transcript. These courses supplement the regular academic program and offer the students the opportunity to enhance present skills, pursue new ones, or explore an area of interest.*

## Applied Arts

### Cooking for Teens\*

JUNE 20-JUNE 24 / 8:15-NOON  
NORTHFIELD CAMPUS  
\$290 / ABSENCE LIMIT: 2 DAYS

**Open to Fr., So., Jr., Sr.** This course is designed for teens who are interested in improving their culinary skills and learning how to prepare popular dishes. Students will learn proper measuring, safety, and sanitation techniques. The following topics are covered: breakfast, sandwiches and salads, fruits and vegetables, meats, breads, and desserts. Class limit 24 students.

### Guitar Making\*

JUNE 13-JULY 6 / 11:30-2:15  
NORTHFIELD CAMPUS  
\$385 / ABSENCE LIMIT: 1 DAY

**Open to Fr., So., Jr., Sr.** This exploratory course is designed for students interested in designing and constructing their own guitar. During the first week students will be engaged in designing an electric guitar of their choice using 2D and 3D software AutoCAD and Inventor. The second week will consist of students learning CNC software, coding, and how to use various CAD/CAM mills, lathes, and routers. During the final week, students will construct their guitars using lab equipment and modern techniques.

### Rube Goldberg Extreme Engineering\*

JUNE 13-JULY 6 / 8:30-11:15  
NORTHFIELD CAMPUS  
\$385 / ABSENCE LIMIT: 1 DAY

**Open to Fr., So., Jr., Sr.** This exciting exploratory course incorporates engineering, design, and problem solving skills. Students will work in teams to create a working mechanical design that will use principles of Rube Goldberg engineering. For example, students could create a machine that takes at least 15 creative steps to apply toothpaste on a toothbrush. Rube Goldberg engineering is a learning tool used to create critical thinkers, problem-solvers, and team players.

## Art

### Studio Art\*

JUNE 13-JULY 6 / 8:15-10:00 / NORTHFIELD CAMPUS  
\$345 / ABSENCE LIMIT: 2 DAYS

**Open to Fr., So., Jr., Sr.** This art class is designed for teens who enjoy exploring both 2D and 3D materials. Students will apply their personal vision to their art-making during this four-week course. Tuition includes lab fees. This course does not take the place of any New Trier art course. Class limit 24 students.

## English

### EL Reading & Writing Enrichment\*

JULY 7-JULY 29 / 10:15-NOON / NORTHFIELD CAMPUS  
FREE FOR CURRENT EL STUDENTS IN NT EL PROGRAM

In reading, students get the opportunity to read a variety of books in English, from novels to textbooks, and work on reading strategies. In writing, students practice a variety of writing forms, from personal narratives to academic reports. This class is for enrichment, to keep students working in English over the summer. The students will not receive high school credit for the class, but they will keep their English abilities improving during the summer.

### Introduction to Freshman English\*

JUNE 13-JULY 6 / 8:15-10:00 / NORTHFIELD CAMPUS  
\$310 / ABSENCE LIMIT: 2 DAYS

**Open to Fr.** This course is for entering freshmen who need practice in the language arts skills necessary for successful work in high school. Emphasis is on language (vocabulary, usage, mechanics), composition (pre-writing and composing with emphasis on the paragraph), reading fiction, and study skills. This course also emphasizes the development of organizational skills, the importance of being an active listener and a contributing classroom participant, and the value of time management. Practice note-taking and text-marking and explore memory strategies and study skills helpful in preparing for objective and essay exams in multiple disciplines.
